

Marlborough Ethical Fund

Monthly Fund Commentary - July 2010

**FOR BUSINESS AND PROFESSIONAL INVESTORS ONLY.
NOT FOR USE BY PRIVATE INVESTORS.**

During June, Marlborough Ethical (-4.1%) outperformed the FTSE All-Share Index (-4.6%). In the year to date the Fund gave a return of -1.2% compared with -4.2% for the mean UK All Companies Fund. It ranked 49 out of 305 (source: Morningstar). The Fund has recently seen inflows.

We participated in placings in Fidessa (+2.8%) and Coal of Africa (-8.4%). Jupiter made a successful IPO debut (+9.7%).

Markets were volatile during the month as Eurozone debt and Chinese economic growth fears continued to weigh on the market and concerns over a 'double dip' recession grew. The quarter proved the weakest since 2002. BP dominated the headlines as it failed to stem the Gulf of Mexico leak and cancelled its dividend for at least the rest of the year. The shares fell to 14 year lows. Prudential also saw its bid for AIA collapse.

Bob Brown - 02/07/2010

Regulatory Information and Risk Warning

The past is not necessarily a guide to future performance. Investments and the income derived from them can fall as well as rise and the investor may not get back the amount originally invested. The fund is subject to an initial charge and subsequently charges are not made uniformly throughout the period of the investment. This fund may invest in smaller companies and those listed on the alternative investment market (AIM) which carry a higher degree of risk than larger companies. The shares of smaller companies may be less liquid and their performance more volatile over shorter time periods.
