Investment Strategy and Risk Profile (For AIM / IHT portfolios, please see separate Appendix 10 for risk definitions)

Our range of investment strategies is detailed below. Please ask your financial adviser to select the most suitable model for us to follow when managing your investment portfolio:

Strategy	Risk Profile	Equity-based Assets %	Fixed Assets %	Description
<input type="checkbox"/> Growth	High	80-100	0-20	This strategy is designed purely for capital growth and as such returns may be volatile especially in the short term.
<input type="checkbox"/> Balanced Growth	Medium High	75-95	5-25	This strategy prioritises capital growth over income and as such returns may be volatile especially in the short term.
<input type="checkbox"/> Balanced	Medium	65-85	15-35	This strategy is designed to achieve a balance of income and capital growth over time.
<input type="checkbox"/> Cautious Balanced	Moderate	55-75	25-45	This strategy is designed to generate an income which can grow modestly in real terms over time whilst retaining the potential for modest capital growth.
<input type="checkbox"/> Cautious	Moderate Low	40-60	40-60	This strategy is designed to produce a reasonably high level of income without unduly restricting the potential for capital growth.
<input type="checkbox"/> Conservative	Low Moderate	30-50	50-70	This strategy seeks to prioritise income over capital growth and as a consequence capital growth is likely to be modest over the longer term.
<input type="checkbox"/> Defensive	Low	20-50	50-80	This strategy seeks to produce a modest long term real return, from a portfolio with relatively low volatility characteristics.

Or

Manage the portfolio in accordance with the bespoke strategy outlined in my Investment Management Proposal

Real Assets are higher risk investments and may include UK and Overseas Equities, Property, Hedge Funds, Commodities and Private Equity where the risk of capital loss is potentially high.

Fixed Assets are lower risk investments and may include Government Bonds, Corporate Bonds, Preference Shares and Cash on Deposit where the risk of capital loss is low, but not impossible.

Please note that all of the above models contain equity-based investments which will fluctuate in value and you may not get back the amount originally invested. If you have any doubts about the suitability of these investments please consult your financial adviser before proceeding.

Portfolio Composition

Please select one of the following:

- Managed Fund portfolio**
Minimum investment £15,000 invested in a range of broadly diversified managed funds and cash.
- Directly Invested Portfolio**
Minimum investment £250,000 invested in a combination of equities, fixed interest securities, managed funds and cash.
- AIM / IHT portfolio**
Minimum investment £50,000 please also complete Appendix 10

Portfolio Style

Please select one of the following:

- Core Portfolio range**
UK biased portfolios (up to 85% UK Equity, up to 40% Overseas Equity)
- Overseas Focused Portfolio range**
Overseas biased portfolio (up to 45% UK Equity, up to 85% Overseas Equity)
Risk warning: For UK based sterling investors, the greater exposure to overseas markets and potential currency movements, may increase the overall risk profile.

Suitability Declaration (for Adviser use only)

I confirm that

(a) I have carried out an assessment of the suitability of RCBIM's discretionary management service for this client and made a personal recommendation to proceed;

(b) I have selected the above investment strategy and carried out an assessment of its suitability for this client, taking into account all necessary information including their knowledge and experience, financial situation including capacity for loss, investment objectives and attitude to investment risk;

(c) These suitability assessments will be reviewed by me at regular intervals and I will notify RCBIM immediately if any changes are required.
