

SMALL SELF ADMINISTERED PENSION SCHEME (SSAS) APPLICATION FORM

Please answer the questions on this form as comprehensively as possible as we will rely on this information when managing your Pension Scheme's portfolio. A suitability assessment will be carried out prior to the account being opened and may be revised at any time given changes in the Pension Scheme's circumstances or preferences. This form and the attached Terms of Business together constitute our agreement with the Pension Scheme and are hereafter referred to as "the Agreement". The Agreement is made between R.C. Brown Investment Management PLC (RCBIM) (registered office: 1 The Square, Temple Quay, Bristol BS1 6DG. Registered in England No. 2489639) and the organization named as "the Client" in the declaration below.

Name of Pension Scheme

Registered Address

Inland Revenue Number

Legal Entity Identifier (LEI)

Please provide your Legal Entity Identifier (LEI), in the above box. Failure to do so will prohibit us from trading on your portfolio. Please also tick one of the following:

- Please automatically renew the LEI annually (see Appendix 9: Authorisation for Legal Entity Identifier (LEI))
- We have our own arrangements for maintaining our LEI and do not require you to do so

If you do not currently have an LEI, please complete 'Appendix 9: Authorisation for Legal Entity Identifier (LEI)' and we will apply for one on your behalf and also take care of the annual renewal.

How would you best describe the Pension Scheme as an investor: Very experienced / Has some experience / Has little experience / Inexperienced	
Which of the following has the Pension Scheme previously invested in: Equities / Fixed Interest / Cash Deposits / Collective Schemes (e.g. OEICs)	

Portfolio Composition

Please select one of the following:

- Managed Fund portfolio** (minimum investment £15,000)
(Invested in a range of broadly diversified managed funds and cash)
- Index Tracker portfolio** (minimum investment £15,000)
(Invested predominantly in a range of index tracking instruments)
- Directly Invested portfolio** (minimum investment £250,000)
(Invested in a combination of equities, fixed interest securities, managed funds and cash)

Investment Constraints

If the Pension Scheme has any specific investment constraints or instructions which it would like us to comply with when managing the portfolio please give details here (Note: it may not be possible to apply restrictions for Managed Fund portfolios, where the investments in the underlying funds are not determined by us):

Investment Strategy and Risk Profile

Please consider the following list of investment models and select the one which most closely matches your objectives and attitude to risk:

- Defensive Risk Profile: Low.** Real Asset/Higher Risk Range: 20-50%. Fixed Asset/Lower Risk Range: 40-60%. This strategy seeks to produce long term real return, from a portfolio with relatively low volatility characteristics.
- Conservative: Low/Moderate.** Real Asset/Higher Risk Range: 30-50%. Fixed Asset/Lower Risk Range: 50-70%. This strategy seeks to prioritise income over capital growth and as a consequence capital growth is likely to be modest over the longer term.
- Income/Cautious Risk profile: Low/Moderate.** Real Asset/Higher Risk Range: 30-50%. Fixed Asset/Lower Risk Range: 50-70%. This strategy seeks to prioritise income over capital growth and as a consequence capital growth is likely to be modest over the longer term.
- Cautious Risk profile: Moderate/Low.** Real Asset/Higher Risk Range: 40-60%. Fixed Asset/Lower Risk Range: 40-60%. This strategy is designed to produce a reasonably high level of income without unduly restricting the potential for capital growth.
- Cautious Balanced Risk profile: Moderate.** Real Asset/Higher Risk Range: 55-75%. Fixed Asset/Lower Risk Range: 25-45%. This strategy is designed to generate an income which can grow modestly in real terms over time whilst retaining the potential for modest capital growth.
- Balanced Risk profile: Medium.** Real Asset/Higher Risk Range: 65-85%. Fixed Asset/Lower Risk Range: 15-35%. This strategy is designed to achieve a balance of income and capital growth over time.
- Balanced Growth Risk profile: Medium/High.** Real Asset/Higher Risk Range: 75-95%. Fixed Asset/Lower Risk Range: 5-25%. This strategy prioritises capital growth over income and as such returns may be volatile especially in the short term.
- Growth Risk profile: High.** Real Asset/Higher Risk Range: 80-100%. Fixed Asset/Lower Risk Range: 0-20%. This strategy is designed purely for capital growth and as such returns may be volatile especially in the short term.

or

Manage my portfolio in accordance with the strategy agreed in my personalised Investment Management Proposal.

- Real Assets** may include UK and Overseas Equities, Property, Hedge Funds, Commodities and Private Equity where the risk of capital loss is potentially high.
- Fixed Assets** may include Government Bonds, Corporate Bonds, Preference Shares and Cash on Deposit where the risk of capital loss is low, but not impossible.

Please note that all of the above models contain equity-based investments which will fluctuate in value and you may not get back the amount originally invested. If you have any doubts about the suitability of these investments please consult your financial adviser before proceeding.
